PROFILE:

I'm a Frontend Developer with a deep understanding of web technologies and a keen eye for design. Committed to delivering seamless user experiences and translating creative concepts into pixel-perfect interfaces. Thrives in collaborative environments, leveraging strong communication skills to drive successful project outcomes.

PROJECTS:

Harmony - The Music Player (Major Project)

ReactJS, HTML, CSS   April 2023 - June 2023

- This music player is a web-based application that allows users to stream and listen to their favorite songs and music playlists from anywhere, at any time.
- It provides a user-friendly interface that is easy to navigate.
- It works with Spotify APIs and renders them perfectly and provides a seamless music experience.

Online Code Editor

ReactJS, HTML, CSS   April 2023 - May 2023

- This online code editor is a web-based application that provides a user-friendly interface for writing and editing code in various programming languages.
- It allows users to write and test code in real-time, without the need to install any software on their computer.
- Here user can write his/her HTML, CSS & JAVASCRIPT code and the output will be shown in the lower half of the screen.

Color Picker WebApp

JavaScript, HTML, CSS   October 2022 - November 2022

- I made this WebApp whose background color will change randomly as you click on the "Click Me" button, and you can pick any random color user like for his/her project.
- It provides hex color codes and users can use that in their projects.
- Although we find similar features with a simple Google search, it was a good excuse for me to practice my javascript skill.

My Portfolio

ReactJS, HTML, CSS   December 2022

- As a front-end developer, I strive to craft visually appealing and user-friendly experiences that leave a lasting impression.
- Explore my diverse range of projects, showcasing my expertise in HTML, CSS, JavaScript & ReactJS. From responsive web designs to interactive interfaces, each project reflects my commitment to delivering seamless digital solutions.
